

BONALDO

Parentesi bedside table

Designer: **Fabrice Berrux**

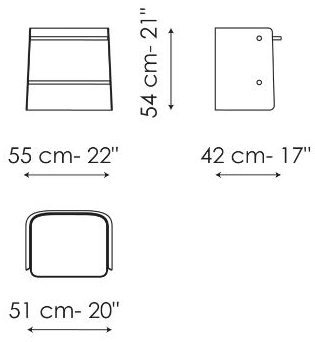

The shape of the Parentesi bedside table brings to mind a niche, a parenthesis that encloses within it two wooden shelves. With an unprecedented design, the Parentesi bedside table with shelves is upholstered in fabric, leather or eco-leather and it is characterised by a simple style, enhanced by four buttons that are visible at the height of the

shelves and equipped with a space for electric cables making it possible to place a lamp or another electronic device on the bedside table. Parentesi furnishes the sleeping area in an original and creative way, ensuring the utmost functionality and consistency of the design.
